Soft Skills:

- Analytical Thinking and Problem Solving
- Communication and Collaboration in Global Teams
- Agile Project Management with Scrum
- Time Management and Self-Learning

💼 PROFESSIONAL EXPERIENCE

Freelance Web Developer & AI Specialist

Design & Develop Hub | 2026 – Present
- Successfully designed, developed, and launched 50+ websites for global clients spanning industries like e-commerce, SaaS, and logistics.
- Engineered AI-powered chatbots, integrated AI-driven personalization features, and improved customer experiences for web platforms.
- Increased client website conversions by 45% through advanced UX optimization and responsive design.
- Implemented RESTful APIs into projects, enabling seamless app integration and back-end communication.
- Managed 5+ simultaneous projects, ensuring high-quality deliverables and on-time delivery.

Lead UI/UX Designer

Prim Logix | 2020 – 2023
- Spearheaded redesign of the company website, achieving 30% more lead conversions and improved SEO rankings within 3 months.
- Conducted detailed user research and developed prototypes for platforms tailored to B2B logistics clients.
- Designed mobile-first applications aligned with key user requirements, improving engagement across devices.

Junior AI Engineer (Intern)

Creative Minds Agency | 2022
- Assisted in developing a customer-centric chatbot for a large retail client using Python and NLP libraries.
- Worked on AI data preprocessing models to support robust ML predictions, reducing error rates by 10%.
- Designed dashboards to visualize ML workflow metrics for performance optimization.

📜 CERTIFICATIONS

- Google UX Design Certificate – Google (2021)
- Advanced Web Development Bootcamp – code academy (2022)
- Certified AI Specialist – Coursera (2023)
- Full-Stack Web Dev Certification – free Code Camp (2024)

EDUCATION

Self-Taught Specialist in Web Development and AI

- Completed structured coursework via free Code Camp, Coursera, and OpenAI Developer tutorials
- Advanced knowledge in JavaScript, Python AI Libraries (e.g., TensorFlow, Py Torch), and cloud deployments.

ACHIEVEMENTS

- Increased SaaS platform client trial signups by 40% with optimized landing pages integrating AI-driven recommendations.
- Recognized as a top freelancer on multiple platforms, achieving 5-star client reviews for high-quality design and technical innovation.
- Designed and delivered a scalable AI solution to automate 80% of customer query handling on e-commerce platforms.
